2026 Annual Industry Appreciation Dinner and Boat Ride

The SOOGA Annual Industry Appreciation Dinner and Boat Ride was held on July 31, 2026, and was a wonderful success. Guests enjoyed beautiful weather, great company, and wonderful entertainment by local artist Jake Binegar. We are grateful to everyone who helped make the event such a memorable evening and look forward to celebrating with everyone again at next year's event. Pictures on page 13.

Virtual Producer's Meeting

The SOOGA Board of Trustees would like to invite all members to a meeting to be held on September 9th, 2026 at 8 a.m. Members will be emailed a calendar invite. If you have not received the calendar invite please call the office at 740-374-3203. We hope to get a group together to discuss producer issues in Ohio and West Virginia.

SAVE THE DATE for SOOGA's Annual Fall Trade Show

Save the date November 12th at the Tower Event and Conference Center in Marietta, OH. Information will be sent out for speakers, booths, and registration

THE CROW'S NEST

Greetings!

As we move into the fall, I want to thank those who attended our 6th Annual Industry Appreciation Boat Ride and Dinner and everyone who helped make the event a success. It was another great opportunity to spend time with colleagues, friends, and family, and we greatly appreciate all of our sponsors, volunteers, participants, and everyone who helped make the evening possible. Events like this help strengthen our association and we are grateful for your continued support.

I also want to remind everyone that we have rescheduled our SOOGA Fall Golf Outing. The outing will now be held on Monday, September 14, 2026, at the Golf Club of West Virginia. We are still looking for some additional teams, and we hope you will consider joining us for a day of golf, fellowship, and networking with others in our industry. We look forward to seeing many of you on the course.

As part of our continued effort to keep our members informed about what is happening in our industry and to be more responsive to their needs, we are also going to open a portion of our upcoming September board meeting to our members. The next SOOGA board meeting will be held on Wednesday, September 9, at 8:00 a.m. During this public portion of the meeting, we will provide updates on natural gas and crude oil prices, shale activity, and developments involving legal matters, environmental safety and health, and governmental affairs. Members who would like to attend the meeting virtually should look for a meeting link that will be emailed prior to the meeting by Kendra Landaker.

We hope our members will take advantage of this opportunity to engage more directly with the board, learn more about what we are doing on behalf of the association, and receive valuable information about issues affecting our industry. We believe that maintaining an open dialogue with our members is important, and we look forward to hearing from you and working together to address the challenges and opportunities ahead.

As always, thank you for your continued support of SOOGA and for everything you do to strengthen Ohio's oil and gas industry. We look forward to seeing you at the Fall Golf Outing and at our upcoming board meeting.

President — Dan Corcoran

Summary

Working gas in storage was 3,117 Bcf as of Friday, July 31, 2026, according to EIA estimates. This represents a net increase of 33 Bcf from the previous week. Stocks were 12 Bcf less than last year at this time and 195 Bcf above the five-year average of 2,922 Bcf. At 3,117 Bcf, total working gas is within the five-year historical range.

For information on sampling error in this report, see [Estimated Measures of Sampling Variability](#) table below.

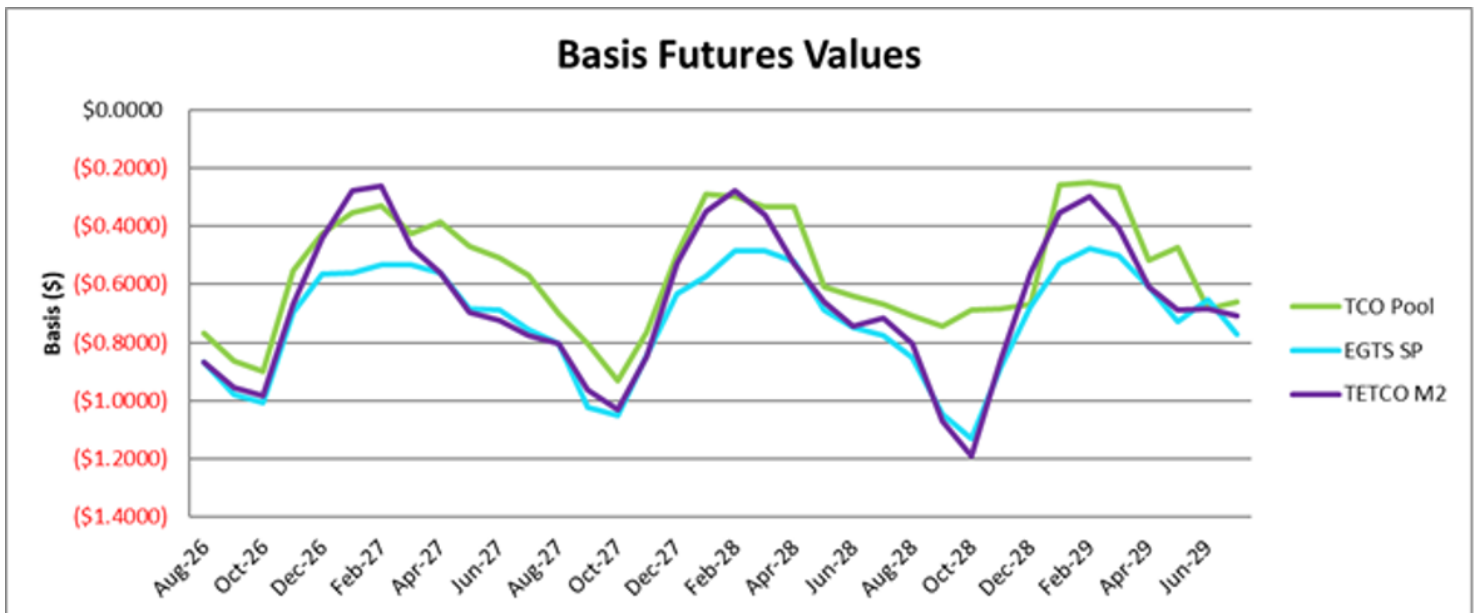

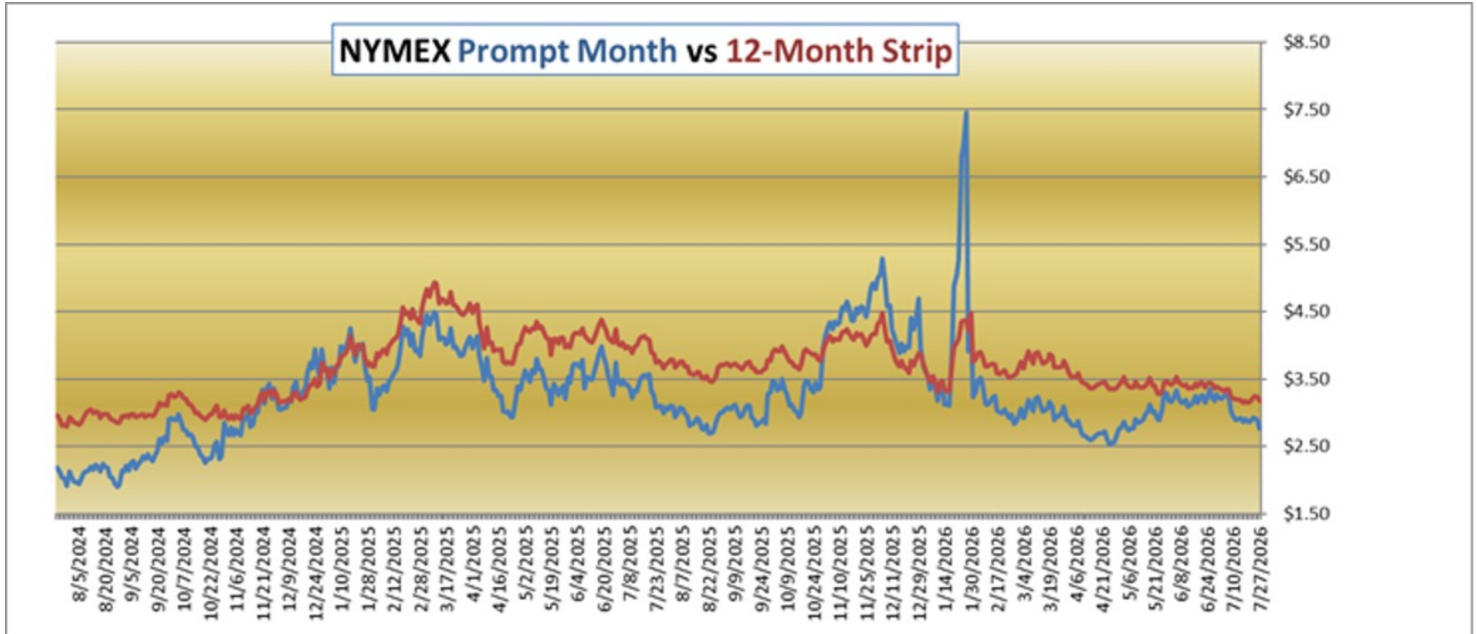

Data source: U.S. Energy Information Administration

Note: The shaded area indicates the range between the historical minimum and maximum values for the weekly series from 2021 through 2025. The dashed vertical lines indicate current and year-ago weekly periods.

Someone's Waiting for You at Home

A new school year means more children, more traffic, and more reasons to slow down.

August brings more than the end of summer. It brings school buses back onto the roads, children walking and riding bicycles, parents rushing to drop off their kids, and increased traffic around schools and residential neighborhoods.

For oil and gas workers, this is especially important. Our jobs often require long commutes, early mornings, late nights, heavy trucks, trailers, and travel on rural roads. OSHA identifies highway vehicle crashes as the leading cause of fatalities in the oil and gas extraction industry.

For the next few weeks, make a personal commitment. *Slow Down. Look Twice. Put the Phone Away.* When you see a school bus, a child on a bicycle, a pedestrian near the road, or a line of cars around a school, don't think, "I've got somewhere to be." Instead think, "Someone else's child is trying to get somewhere safely." And remember—there is someone waiting for you to get home safely, too.

WV UPDATE– Leroy Baker

The Hope Gas Red Line Category 1 case continues at the WVPSC. This case is for the abandonment of approximately 34 miles of gathering lines which have no producer production or Hope gas customers. There are some free gas customers on these lines. Even though the Cat. 1 lines have no producer gas, this case is important because it will set precedence for the abandonment of Category 2, 3 & 4 lines later. A final order for the Cat. 1 lines is scheduled for November 30, 2026. It is expected that Hope Gas will file to abandon Cat. 2 lines shortly after Cat. 1 final order is done. Cat. 2 lines are those lines with 1 producer and no Hope customers.

In May 2026 Hope filed a case to increase its PREP rate. (Pipe Replace and Expansion Program) Currently Hope Gas is collecting \$0.05 / Dth from producers on its system. The proposed new rate is \$0.124 / Dth. A hearing about this case is scheduled for Sept. 23, 2026, in Charleston.

These cases are very important and if you are a producer affected by them and can offer support I would encourage you to become involved.

FYI – In June 2026 Hope Gas change its meter read cycle from monthly to every 90 days for most DGP and EGP-Hastings Hill gathering producer meters (charts and electronic reads). Meters were read in June 2026 and will be read each September, December, March and June going forward. These meters will be estimated during off months based on recent average production. The estimated months will be trued-up when actual volumes are received, and prior period adjustments will be issued. If a producer has MOA meters they change monthly they must continue to change those meters.

I would advice producers to monitor their meters closely so if a meter has an issue you can get it reported for repair promptly. You should also work with your marketer if you have major production swings on your meter.
